This Founder Services Agreement (the **"Agreement"**) is entered into as of the date last signed below, by and between:

Amber's Angels, Inc., a Georgia nonprofit corporation with 501(c)(3) status pending (EIN 42-2052151) (**"the Organization"**), and

Grant Lindberg, an individual residing in Carrollton, Georgia (**"Founder"**).

RECITALS

> **A.** Founder conceived, designed, and built the Amber's Angels technology platform beginning on or about March 22, 2026, including the backend detection pipeline, web dashboard, mobile application, and supporting infrastructure.

> **B.** Founder has provided these services on a deferred-compensation basis, without receiving payment, in anticipation of the Organization securing grant funding, donations, or other revenue sufficient to support operations and payroll.

> **C.** The Organization wishes to formally acknowledge Founder's services, memorialize the deferred compensation liability, and establish the terms under which Founder will continue to provide services during the period prior to formal employment.

1. SERVICES PERFORMED

From March 22, 2026 through the date of this Agreement, Founder has provided professional technology services to the Organization including, without limitation: full-stack software architecture and development, mobile application development, AI/ML pipeline integration, cloud infrastructure management, DevOps and CI/CD implementation, and technical grant documentation. A detailed log of services rendered is maintained in the project version control repository (github.com/grantl12/ambers-angels) and summarized in the attached Exhibit A.

2. DEFERRED COMPENSATION

2.1 Rate. The parties agree that the fair market rate for Founder's services, consistent with rates charged by independent contractors of equivalent expertise in the Atlanta, Georgia metropolitan area, is **$150.00 per hour**.

2.2 Hours and amount. Through May 15, 2026, Founder has contributed approximately **127.5 hours** of professional services, representing a deferred compensation liability of **$19,125.00**. This figure is documented in the Organization's records as an in-kind contribution for grant-matching purposes and as a deferred liability for reimbursement purposes.

2.3 Ongoing accrual. Services rendered after May 15, 2026 and prior to the commencement of formal employment (Section 4) shall accrue at the same rate of $150.00 per hour and shall be logged by Founder on a monthly basis. The Organization's board shall review and approve accrued hours quarterly.

2.4 Payment upon funding. Deferred compensation shall become payable upon the Organization receiving cumulative funding (grants, donations, or revenue) sufficient to cover at least six (6) months of projected operating expenses, as determined by the board of directors. Payment may be made as a lump sum or in installments as the board deems appropriate, consistent with the Organization's cash flow. Under no circumstances shall payment of deferred compensation impair the Organization's ability to fulfill its charitable mission.

2.5 Subordination. Founder agrees that this deferred compensation obligation is subordinate to the Organization's obligations to program beneficiaries and third-party creditors.

3. OUT-OF-POCKET EXPENSES

In addition to deferred compensation for time, Founder has paid the following out-of-pocket expenses on behalf of the Organization through May 16, 2026, totaling **$592.09**. Detailed receipts are maintained separately (see EXPENSES.html). The Organization acknowledges this liability and shall reimburse Founder promptly upon receiving adequate funding, with priority over deferred compensation.
