The value of personal services (time, labor) is NOT deductible — see separate TIMESHEET.html for in-kind documentation purposes only.

Apportionment note (Claude Pro): If a subscription or tool is used for both AA and personal purposes, only the charitable-use portion is deductible. Document your usage pattern in case of audit.

Record retention: Keep all receipts, bank statements, and confirmation emails for at least 3 years from the date of filing the return on which the deduction is claimed (6 years if you underreport income by more than 25%). Digital receipts are acceptable.

No goods or services received: Contributor received no goods or services in exchange for these payments. This statement serves as the written acknowledgment required under IRC § 170(f)(8) for contributions of \$250 or more (the formation costs, taken together, exceed this threshold).
